

Doing Good, Better

Membership Brochure

If the amount of prioritization that was given to meeting with donors, pleasing others, and looking good on stage was actually applied to resiliency, accountability, organization, and working together, I think phenomenal change would happen.

Who We Are

Accountable Now is a global platform supporting civil society organizations (CSOs) to lead with accountability. Founded in 2006 by leading CSOs, our work is underpinned by the Global Standard for CSO Accountability, a reference framework co-hosted by Accountable Now and 12 other civil society networks around the world.

Why?

Civil society organizations and nonprofits need to evolve, adapt, and live out their values to bring about transformative change.

For Who?

Today, our community of Members and partners represents a global network of organizations, active in more than 170 countries around the world, working together to transform accountability.

How We Work

At Accountable Now, we help civil society organizations live their values and lead with integrity through our dynamic approach to accountability. We believe that accountability should be a dynamic and continuous process, not a 'tick box' exercise.

Following that ethos, we practice and promote **Dynamic Accountability** - an approach that goes beyond monitoring & evaluation, due-diligence and compliance, driving accountability as a process that centers communities' voices, feedback, and preferences.
