

# Accountable Now

GLOBAL STANDARDS  
LOCAL TRUST

Accountable Now is a global platform  
that supports civil society organisations (CSOs)  
to be transparent, responsive to stakeholders  
and focused on delivering impact

**Our framework is based on ten globally agreed-upon Accountability Commitments**

Our comprehensive set of standards allows us to assess if these commitments are being delivered.

Our Independent Review Panel ensures integrity. Consisting of internationally-recognised experts, it provides in-depth and individual feedback to each Member organisation.

Joined by internationally operating CSOs - from across the sector - **Accountable Now** has a strong reputation and hosts an inspiring community of practice to learn from.

As Membership and global collaboration increase, our collective voice is strengthened.

**Sign up to improve your performance and credibility and co-shape the accountability standards of the future!**

## People-Powered Accountability

Unlike other standards, we go beyond reporting to help CSOs actively engage stakeholders, donors, partners, supporters, local actors and the public. This is key to building trust and delivering a greater quality of work.

With our partners from Amnesty International, Restless Development, 350.org and others, we explore how to best drive people-powered practices. Together we aim for a culture that propels interaction, listening, co-creation and sharing of responsibility for actions and results.

“As we witness more governments relinquishing civic authority to private industry and rolling back regulatory oversight, it is more important than ever that we ensure accountability and transparency; this is why **Accountable Now** is so important to us.”

Bunny McDiarmid and Jennifer Morgan, Executive Directors, **Greenpeace International**

## Global Standard for CSO Accountability

Initiated by Accountable Now, this project brings together nine well-established civil society accountability networks from around the world. The overarching aim is to devise a collective Global Standard with a unified and compelling narrative for civil society organisations’ commitment to the public.

“For CIVICUS it is important that CSOs base their accountability on truly global reflection and expertise. **Accountable Now** offers the ideal platform for this exchange of expertise and collective development for strong global CSO accountability.”

Danny Sriskandarajah, Secretary General and CEO of **CIVICUS**
