

Reply from Oxfam Hong Kong on the Panel's feedback

Oxfam Hong Kong appreciates the process of receiving feedback from the Independent Review Panel. We note the comments from the Panel and would take them into account in preparing our upcoming report, particularly to include more evidence on the implementation of the policies and procedures. The additional reporting indicators were chose considering both the materiality of the questions and the readiness of the answers within Oxfam Hong Kong. Some of the information are also used in our annual reports and programme evaluations. Key partners refers to partners that working with us to deliver our projects. Stakeholders are used more broadly referring to all important players related to our work, including donors, beneficiaries, governance body etc.

Stephen Fisher, Director General, Oxfam Hong Kong.
