Dear Merle Rutz,

It is a pleasure to submit IRC's report. As you can see we have increased the number of indicators we report on compared to last year. Unlike last the report is not integrated with our annual report but became once again a separate report to answer to last year feedback. We still aim to integrate this reporting with our annual report in future.

At the same time there are some indicators we did not report on because they are of little relevance to the work IRC is involved in or the current situation within the organisation. We have listed these below and will not hesitate to report towards these once they would become relevant.

NGO4 - Measures to integrate gender and diversity into programme design and implementation, and the monitoring, evaluation and learning cycle.

SO1 - Impacts of activities on the wider community.

SO2 - Process for ensuring effective anti-corruption policies and procedures?

SO4 - Actions taken in response of incidents of corruption.

We noticed that on the website <http://www.ingoaccountabilitycharter.org/home/charter-members/irc-international-water-and-sanitation-centre/>. IRC's old website is still mention. Our new website is: [www.ircwash.org](http://www.ircwash.org)

Yours sincerely,
